Our in-house manufacturing allows for close supervisión and facilitates direct communication with our artisans. Our close physical proximity to other countries in North America, assures a fast lead time for our american clients.

Co-founded by textile designer, Valentina Casale and her late father, Hernan Casale, TheArtRug elevates carpet making to an art form. Their vision was rooted on their mutual love for art, design and architecture, as well as on their extensive experience in the field of rug manufacturing. Hernan, who was born into a family textile business, founded his own successful rug manufacturing company in Puebla, in 1978. As her dad, Valentina enherited the love of artistic rug making in her DNA. Equipped with the experience that only comes from being born into a family of rug manufacturers, she leads the company into a new era with the mission of offering artists, art lovers, and the most discerning of clients with the highest quality product in the field.

TheArtRug offers exclusive rugs for luxurious residencial spaces, exclusive boutiques, corporate offices, hotels, restaurants among others.
